

Trenching Shovel - 4in

RG21224

Details

It's the right tool for irrigation trenching, made of heavy-duty 14-gauge steel that's heat treated and tempered. Prevents mud buildup. Unique full forward turned step and user-friendly neck design. Full-contact socket resists collapsing; handle breakage. Weld joining neck to head outperforms open-back designs. Fine grained northern ash handles.

- Heavy-duty
- Prevents mud build-up
- Full forward turned step
- Full-contact socket
- Weld joining neck to head outperforms open-back designs

Specifications

Manufacturer	R&R Products
