

Powerhead Planter - 6"

RGPH80

Details

Plant flowers in record time with little effort and save labor costs! This cone shaped planter attaches to any straight shaft trimmer to cut a 6" diameter hole, 7" deep in a matter of seconds. The 4 vertical cutting blades cut with no airborne debris while producing a clean, neat hole. Operator stands at a 5 foot distance to work around existing plants without damage. Lightweight, durable plastic construction. Weighs less than 1 lb.

Specifications
