

Gentle Giant Snake Tongs - 40in

RP2900

Details

Designed for secure holding and the most humane handling of heavy-bodied snakes. A triple coated top jaw combined with the smooth surface lower jaw reduces the snakes ability of motion. The extra wide 2-1/4in gentle grip jaws disperse pressure and allows for faster gripping with less chance of escape which is especially important when handling water and tree dwelling snakes. Ergonomic handle. Lightweight concealed aluminum with stainless steel cable and spring. 40in long.

- 2-1/4in Wide Jaws for Faster Gripping
- Faster Gripping for Water Snakes and Tree Dwelling Snakes
- Top Jaw Triple Coated for Secure Gentle Drag on Snake
- Lightweight Blue Aircraft Grade Aluminum with Stainless Steel Cable and Spring
- Polished, Smooth Lower Jaw Reduces Snake Forward Motion
