

DirectoValve - 2 Way Single EPDM RTJAA144A-1

Details

Used in turf sprayers for remote On-Off boom control. Direct acting large internal flow chamber without pilot hole reduces chance of clogging. Operate on 12- VDC system. 10 GPM (37.9 l/min) flow with only 5 psi (0.34 bar) pressure drop. 2.5 amp current draw. Polypropylene body. No stroke adjustment required. Corrosion resistant 430SS solenoid grade armature and armature stop. Encapsulated solenoid coil and magnetic circuit. Repair Kits include spring, 2 diaphragms and seat washer.
